

Why E-600 leg supports?

The E-600 bench system is the "next generation" of modular ergonomic work benches for the professional working environment! The E-600 system is designed with the future in mind. A solid work platform with a new level of flexibility and adjustability! Check out these features:

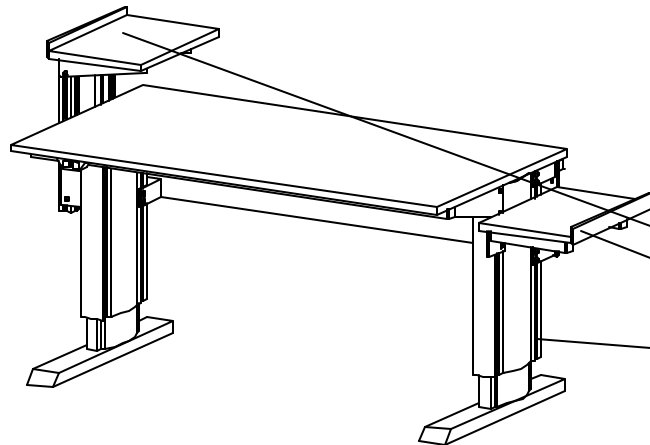

100% sit-stand capabilities:

1. Get an optional recessed bench top in any size
2. Manually lower the starting point of the top as low as 16"
3. Adjust top with motorized 16" or 20" stroke

Top can be as low as 16 in. above the floor!

Mount accessories on leg supports!

- Height adjustable shelf for monitor or test equipment.
- Mount shelving and accessories on both the outside and the inside of the leg supports!
- Aluminum leg supports with slots makes the E-600 leg supports easy to customize.

Combine 3 or 4 legs with synchronized height adjustment

- Join 3 of 4 legs together to make U or L shaped benches
- Vertical posts mounts anywhere on the back support frame
- Wide range of ergonomic accessories and components available
